The routes are marked and regularly prepared whenever snowfalls dictate. Never take a closed trail (check the piste information). Make sure you choose a trail of a length and difficulty that suits your ability.

Follow the direction of the piste; When stopping, never stay in the tracks, stop at the side. Where the trail crosses alpine ski pistes and draglifts, the alpine skier has priority: take care! The correct equipment for this sport is available in sports shops. Ski schools offer lessons for all levels.

Some trails run alongside the cross-country ski trails, don't walk on the tracks. Take care; the cross-country skier takes priority over the pedestrian.

The natural areas that you will cross are fragile, please respect them! Take your rubbish away with you. Dogs are allowed, provided they are kept on a lead.

Dog owners, please use the waste bags provided at the beginning of the trail and in all the resorts.
